Dear Stan,

I was delighted to learn from Henry Holt, Chairman of Principia's Board, that you have accepted an invitation to talk at The Roundtable in St. Louis on Tuesday, November 25th. Is it appropriate to inquire if you might be able to visit Principia's Upper or High School while you are in St. Louis and perhaps speak briefly to the student body there? The kind of message you brought to the college students last spring would be a real inspiration to those youngsters. I'll hope for a favorable reply.

Stan, in talking with George Andrews the other day, I learned that you might again be taking a little relaxing time on the West Coast this summer. If, at any time in the future, the quarters at our Principia Guest House and surrounding environment would give you some of the quiet and serenity for relaxation you are seeking, please know what a pleasure and privilege it would be to work out the arrangements. Not knowing your schedule, I can't really suggest a specific time, but would always welcome a message from you that would give us specific dates to work on.

Helen joins in warm good wishes to you and Pat, and thanks again for what you brought to Principia this spring.

Sincerely,

P.S. Your Principia talk as printed in the Alumni Purpose comes out very well. Jim Pike tells me you already have a copy, but additional ones are available if you wish them.
